Safe Environment Program Diocese of Tyler

September 29, 2006

It is very important that conscious and consistent effort be made to form our young people about what constitutes a **safe environment** and how to respond if they are ever faced with a situation that threatens them or makes them uncomfortable. The diocese of Tyler encourages all parents and guardians to take seriously this need for forming their children concerning **safe environment** issues. The diocese encourages all parents/guardians to work in a responsible manner with the diocese in the ongoing formation of their children regarding the topic of sexual abuse. This record of your choice concerning participation in the **Safe Environment Program** will help insure that every parish in the diocese complies with the Charter for Protection of Minors and with the Essential Norms.

After having received the **Safe Environment Program** materials, a parent or guardian is asked to please select one of the following options so that we may have a record that as a parent/guardian you have personally been contacted, received the materials, and have chosen your plan for action in regards the safe environment formation of your child.

Select ONE of the following:

- I have received a set of materials in connection with the Safe Environment Program of the Diocese of Tyler and I wish to continue to work with the diocese in carrying out my primary obligation for my child. I therefore give permission for my child to be presented with the SEP materials as part of their class or activities at the church.
- I have received a set of materials in connection with the Safe Environment Program of the diocese of Tyler and I will personally see to the Safe Environment formation of my child. I therefore specifically ask that my child is not exposed to the SEP materials while involved with any parish or school programs.
